

KILL YOUR THIRST

WITH OUR NEW WATER FROM DEEP DOWNUNDER

THE LEGEND ARRIVES

Centuries ago, a poor soul named Bones met his ultimate end, drowning whilst killing his thirst in underground bubbling springs. After his death his soul became trapped in an icy polar rock vortex within the springs. Decade after decade, people would travel miles to source the purest spring water emerging from what they believe was his trapped skull. This magical water filtered through limestone underground caves to emerge as the purest spring water ever known. Now this immortal water is here, created to refresh a new generation of skull water imbibers and to invigorate stagnant water sales. SKULL WATER will bring new life to the category.

SKULL WATER

Pure Natural Still Spring Water
